

Getting Reading Right

A consortium of educators to build teacher knowledge on how to *get reading right*

There is over 30 years of research on the Science of Reading. It's time to use this research to get reading right! The *Getting Reading Right* initiative is dedicated to building teacher knowledge around the Science of Reading.

Getting Reading Right is framed around helping teachers understand the Simple View of Reading and offers drill downs focused on the strands of Scarborough's Reading Rope so they can provide quality, Tier 1, evidence-based reading instruction.

Who Is It For?

- K–3 teachers
- Intervention teachers
- Instructional coaches
- Any school that wants to build capacity with the whole staff

- Foundational reading skills (phonemic awareness, phonics, fluency, vocabulary, and comprehension)
- Explicit and systematic instruction
- Using data to determine where students are and how to move them forward
- Ready-made tools and resources to use in distance learning and in-person instruction

Accessible as:

- [Summer Boot Camp](#)
- [21/22 County-wide cohort \(monthly\)](#)
- Customized school cohort
- On-line, self-paced course
