## Getting Reading Right K-5 Consortium

*With over 50 years of brain research on the science of reading, it's time to get reading right! The Getting Reading Right initiative is dedicated to building educators' knowledge on how to best support all students in becoming skilled readers .*

*Getting Reading Right* is framed around helping educators understand the Simple View of Reading through training modules focused on the strands of Scarborough's Reading Rope, so they can provide quality Tier 1 and Tier 2 evidence-based reading instruction.

*Getting Reading Right* trains educators how to:

- Identify and utilize quality assessments
- Analyze data to inform instruction
- Provide explicit and systematic instruction
- Effectively use evidence-aligned strategies

**10 modules  
on Zoom**

**We believe every elementary educator needs this information!**

### Who Is It For?

- K-5 teachers
- instructional coaches
- TOSAs
- administrators
- district-level personnel

**Build a community of like-minded educators!**
